

PROSERIES 150 VALVE

Application: Residential / Commercial

K-Rain's ProSeries 150 Valves offer the irrigation professional a wide array of features and benefits.

The 1", 1-1/2" and 2" (2,5 cm, 3,8 and 5 cm) models have a removable metering pin and external bleed screw promoting easy maintenance and manual operation.

The Jar-Top valve provides the professional contractor easy servicing access.

The 1-1/2" and 2" (3,8 and 5 cm) models feature a removable inlet cap to easily modify configuration from globe to angle.
